SECTION III – RISK FACTORS

An investment in equity shares involves a high degree of risk. Prospective investors should carefully consider all the information in this Draft Red Herring Prospectus, including the risks and uncertainties described below, before making an investment in the Equity Shares. The risks and uncertainties described below are not the only ones relevant to us or our Equity Shares, the industry in which we operate or to India. Additional risks and uncertainties, not currently known to us or that we currently do not deem material may also adversely affect our business, results of operations, cash flows and financial condition. If any of the following risks, or other risks that are not currently known or are not currently deemed material, actually occur, our business, results of operations, cash flows and financial condition could be adversely affected, the price of our Equity Shares could decline, and investors may lose all or part of their investment. To the extent the COVID-19 pandemic adversely affects our business and financial results, it may also have the effect of heightening many of the other risks described in this section.

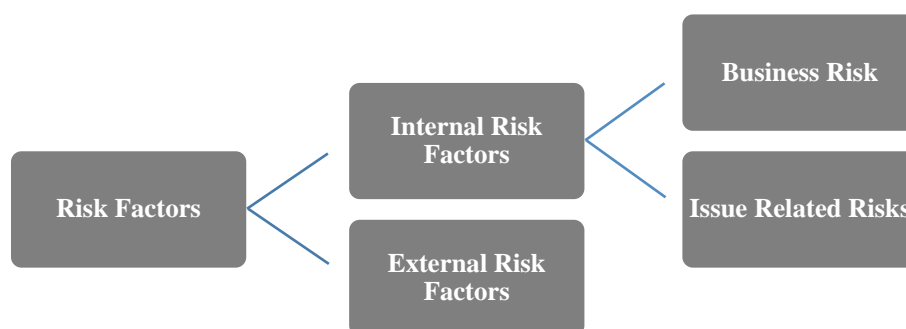

Unless otherwise stated in the relevant risk factors set forth below, we are not in a position to specify or quantify the financial or other implications of any of the risks mentioned herein. To obtain a complete understanding, you should read this section in conjunction with the chapters titled “Our Business” beginning on page 91, “Our Industry” beginning on page 81 and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on page 188 respectively, of this Draft Red Herring Prospectus as well as other financial information contained herein.

The following factors have been considered for determining the materiality of Risk Factors:

- *Some risks may not be material individually but may be found material collectively;*
- *Some risks may have material impact qualitatively instead of quantitatively;*
- *Some risks may not be material at present but may have material impact in future.*

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are risk factors where the impact may not be quantifiable and hence the same has not been disclosed in such risk factors. Unless otherwise stated, the financial information of the Company used in this section is derived from our financial statements, as restated in this Draft Red Herring Prospectus. Unless otherwise stated, we are not in a position to specify or quantify the financial or other risks mentioned herein. For capitalized terms used but not defined in this chapter, refer to the chapter titled “Definitions and Abbreviations” beginning on page 2 of this Draft Red Herring Prospectus. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk factor over another.

The risk factors are classified as under for the sake of better clarity and increased understanding:

INTERNAL RISK FACTOR

Business Risk:

- 1) Our top 10 and top 5 customers contribute majority of our revenues from operations for the financial year 2021-22, 2020-21 and 2019-20. Any loss of business from one or more of them may adversely affect our revenues and profitability.**

Our top 10 customers contributed 63.23%, 67.09% and 73.31% of our revenues during the financial year 2021-22, 2020-21 and 2019-20 respectively, whereas, our top five customers contribute 47.07%, 52.28% and 51.20% of our revenues during the financial year 2021-22, 2020-21 and 2019-20 respectively. Any decline in our services and any change in the demand for our services by these customers may adversely affect our ability to retain them. We cannot assure that we shall generate the same quantum of business, or any business at all, from these customers, and loss of business from one or more of them may adversely affect our revenues and profitability. We intend to retain our customers by offering solutions to address specific needs in a proactive, cost effective and time efficient manner. This helps us in providing better value to each customer thereby increasing our engagement with our new and existing customer base that presents a substantial opportunity for growth.

- 2) We may face decrease in profits due to any change in taxation policy.**

Our Company, subject to the fulfilment of prescribed conditions as provided in Section 80JJAA of Income Tax Act, 1961, is entitled to claim deduction of an amount equal to 30.00% of additional employee cost (relating to specified category of employees) incurred in the course of business in the previous year, for three assessment years including the assessment year relevant to the previous year in which such employment is provided under Section 80JJAA of the Act. In case there is change in the Finance Act or the government policy, we may not be able to claim such deduction and we cannot assure that we shall generate the same quantum of profit and may adversely affect our revenues and profitability.

- 3) Any failure to attract and retain qualified Associates who meet the staffing requirements of our clients may adversely affect our business prospect, reputation and future financial performance.**

We depend on our ability to attract qualified associates who possess the skills and experience necessary to meet the staffing requirements of our clients. We must continually evaluate our base of available qualified personnel to keep pace with changing client needs. Competition for individuals with proven professional skills is intense, and demand for these individuals is expected to remain strong for the foreseeable future. Intense competition may limit our ability to attract and retain the qualified personnel necessary for us to meet our clients' staffing needs. There can be no assurance that qualified personnel will continue to be available in sufficient numbers and on terms of employment acceptable to us. Our success is substantially dependent on our ability to recruit and retain qualified temporary personnel.

- 4) We operate in a highly competitive and fragmented industry with low barriers to entry and may be unable to compete successfully against existing or new competitors, particularly in the unorganized segment.**

The staffing services market is highly fragmented and competitive. We compete in inter-national, national and regional markets with both full-service and specialized temporary staffing companies. A majority of our competitors in terms of revenues and number of Associate Employees, several competitors, including the Indian affiliates or India-based operations of global players such as Adecco S.A., Manpower Inc., Randstad Holding N.V. and Kelly Services, Inc. and Indian human resources companies such as Quess Corp Limited, TeamLease Services Limited and Firstmeridian Business Services Limited have substantial marketing and

financial resources at their disposal. We also face competition from various regional players. Price competition in the staffing industry is intense, particularly for qualified industrial personnel. We expect that the level of competition will remain high, which could directly impact the size of our workforce and therefore potentially limit our ability to maintain or increase our market share or profitability. We also face the risk of our current or prospective clients deciding to utilize their internal workforce or use independent contractors or service providers in the unorganized segment. Our continued success depends on our ability to compete effectively against our existing and future competitors. With the potential influx of new competitors, our ability to retain our existing clients and to attract new clients is critical to our continued success. As a result, there can be no assurance that we will not encounter increased competition in the future. Nor can there be any assurance that our Company will, in light of competitive pressures, be able to remain profitable or, if profitable, maintain its current profit margins. Further, our global competitors might be able to realign themselves with change in global macro-economic environment more effectively than us.

5) Loss of major clients or the deterioration of their financial condition or prospects could have a material adverse effect on our business.

While our strategy is intended to enable us to increase our revenues and earnings from our major corporate clients, the strategy also exposes us to increased risks arising from the possible loss of major clients accounts. In addition, some of our clients are in industries that have experienced adverse business and financial conditions during economic downturn. The deterioration of the financial condition or business prospects of these clients could reduce their need for temporary employment services, and result in a significant decrease in the revenues and earnings we derive from these clients. Since receipts from clients generally are made after we pay salaries to Associate Employees, the bankruptcy of a major client could have a material adverse impact on our ability to meet our working capital requirements. Further, as a result of alleged contractual noncompliance, we could be excluded from participating in government contracts.

6) Due to the nature of the staffing services business, we may be exposed to employment-related claims and losses that could have a material adverse effect on our business and reputation.

We employ and assign our Associate Employees in the workplaces of our clients. Our ability to control the workplace environment in such circumstances is limited, and the risks associated with these activities, *inter-alia*, include possible claims relating to:

- actions or inactions of our Associate Employees, including matters for which we may have to indemnify our client;
- discrimination and harassment (including claims relating to actions of our clients);
- wrongful termination or retaliation;
- violations of employment rights related to employment screening or privacy issues;
- failure to verify candidates' and temporary employees' backgrounds and qualifications;
- apportionment between us and our client of legal obligations as an employer of temporary employees;
- violation of health and safety regulations;
- retroactive entitlement to employee benefits and other similar employment claims; and
- failure to comply with leave policy requirements.

We are also subject to potential risks relating to misuse of client proprietary information, misappropriation of funds, death or injury to our Associate Employees, damage to the client's facilities due to negligence of Associate Employees, criminal activity or torts and other similar claims. We may incur fines and other losses or negative publicity with respect to these claims. In addition, these claims may give rise to litigation, which could be time-consuming and may incur significant costs. While such claims have not historically had a material adverse effect upon our Company, there can be no assurance that the corporate policies we have in place to help reduce our exposure to these risks will be effective or that we will not experience losses as a result of these risks. There can also be no assurance that the insurance policies we have purchased to insure against certain risks will be adequate or that insurance coverage will remain available on reasonable terms or be sufficient in amount or scope of coverage.

7) We may discontinue our Electronics export business in the near future

As on March 2022 and December 2022, we have generated revenue of Rs. 10,064.29 lakhs & Rs. 20,165.41 lakhs respectively from export of Mobiles. There is a possibility of us discontinuing the electronics exports business in the future to focus on the core HR Services business, which may affect our Revenues and Profitability.

8) We may be unable to perform background verification procedures on our Associate Employees prior to placing them with our clients.

Our internal policies require us to perform background verification, however, we don't always perform background verification procedures on some Associate Employees prior to employing them, depending on the requirement of the client company. However, given the high volume of Associate Employees that we employ, and the quality of sufficiently reliable information being unavailable in some cases, we may be unable to fully perform background verification procedures on each of our Associate Employees. Our inability to perform these procedures fully could result in insufficient vetting of our Associate Employees, which could in turn result in an adverse effect on our reputation, results of operations and business prospects if such Associate Employees engaged in illegal or fraudulent activities during the course of their employment.

9) We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and serious harm to our reputation. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

10) Our businesses are subject to various operational risks and any adverse incident or accident involving employees in our businesses may adversely affect our reputation, business, results of operations and financial condition.

As a provider of temporary and permanent staffing solutions and other manpower outsourcing services, our reputation is dependent upon the performance of our Associates we place with our clients and the services rendered by such Associates. If our clients become dissatisfied with the performance of our Associates or recruitment personnel, or if any such Associates do not perform in accordance with the instructions or standards established by the clients or agreed by us, our reputation and ability to maintain or expand our client base may be adversely affected.

Our business operations, in particular, compliance management and background checks and verifications run the risk of providing inaccurate advisory services. Our success in these verticals is dependent on our reputation for providing quality services, track record of consistent and accurate advisory, and our relationship with our clients. Adverse publicity resulting from an adverse incident could result in a negative perception of our services and the loss of existing or potential clients. Such risks and other unanticipated adverse incidents could also lead to additional regulatory scrutiny and potential liability to third party claims, which could have a material adverse effect on our business prospects, results of operations and financial condition.

11) The restated consolidated financial statements have been provided by peer reviewed chartered accountants who is not statutory auditor of our Company

The Restated Consolidated Financial Information of our Company as disclosed in section titled "Restated Consolidated Financial statements" beginning on Page no. 144 of this Draft Red Herring Prospectus for nine

months ended December 31, 2022 and for the financial year ended on March 31, 2022, March 31, 2021 and March 31, 2020 are provided by peer reviewed chartered accountants who is not the Statutory Auditor of our Company.

12) Our business is significantly affected by fluctuations in general economic activity.

Demand for staffing services is significantly affected by the general level of commercial activity and economic conditions in the regions and sectors in which we operate. An economic downturn in a region or sector in which we operate may adversely affect our operations in that region or sector, as the use of temporary employees may decrease, or fewer permanent employees may be hired. Many of our Company's top clients are multi-national corporations, and a downturn in the global markets may adversely affect their operations, thereby affecting our business, financial conditions or results of operations. When economic activity increases, temporary employees or contract workers are often added before full-time employees are hired. During period of economic downturn, however, many companies reduce their use of temporary employees before laying off full-time employees. We may also experience more competitive pricing pressure during periods of economic downturn. Also, declining unemployment levels can make it harder for us to identify Associate Employees to place with our clients. Any significant economic downturns, such as those in 2008 and the COVID crisis in India or in the global markets could have a material adverse effect on our business, financial condition and results of operations.

13) Our Company, its Promoters, its Directors, Group Companies and Subsidiaries are involved in certain legal proceeding(s). Any adverse decision in such proceeding(s) may render us/them liable to liabilities/penalties and may adversely affect our business and results of operations.

Our Company, its Promoters, its Directors, Group Companies and Subsidiaries are involved in certain legal proceedings and claims in relation to certain civil matters incidental to our business and operations. These legal proceedings are pending at different levels of adjudication before various courts and tribunals. Any adverse decision may render us/them liable to liabilities/penalties and may adversely affect our business and results of operations.

A summarized classification of all the legal and other proceedings are as follows:

14) Our business is subject to extensive government regulation, which may restrict the types of services we are permitted to offer or result in additional tax or other costs that reduce our revenues and earnings.

The staffing services sector is subject to complex laws and regulations. These laws and regulations cover the following such as Minimum Wages Act, Employees' State Insurance Act, Contract Labour (Regulation & Abolition) Act, 1970, Employees' Provident Funds & Miscellaneous Provisions Act and Industrial Dispute Act, which vary from state to state in India and are subject to change. These laws and regulations sometimes limit the size and growth of staffing services markets. Changes in laws or government regulations may result in prohibition or restriction of certain types of employment services we are permitted to offer, or the imposition of new or additional licensing or tax requirements that could reduce our revenues and earnings. There can be no assurance that we will be able to increase the fees charged to our clients in a timely manner and by a sufficient amount to cover increased costs as a result of any changes in laws or government regulations. Any future changes in laws or government regulations, including changes in tax laws and rates of taxation, may make it more onerous for us to provide staffing services and could have a material adverse effect on our business, financial condition and results of operations. Further, labour laws in India are complex and subject to sporadic change, and non-compliance with any requirements thereunder may result in penalties, loss of business and damage to our reputation. In particular, a large portion of our Associate Employee base is unskilled or semi-skilled workers whose wages are at or slightly above the prescribed minimum wage levels. In the event that regional minimum wage levels are increased by relevant Governmental authorities and we are not immediately made aware of these changes, there could be short periods of time when we could be technically non-compliant with minimum wage rules and regulations, until our clients absorb the increase in wages.

15) We may be unable to fully realize the anticipated benefits of any future acquisitions successfully or within our intended timeframe.

Our Company may in the future undertake acquisitions consistent in line with our future growth strategy. The successful implementation of acquisitions depends on a range of factors, including funding arrangements, cultural compatibility and integration. To the extent that we fail to successfully integrate acquisitions with our existing business or should the acquisitions not deliver the intended results, our financial performance could be negatively affected. Potential difficulties that we may encounter as part of the integration process could *inter-alia* include the following:

- underestimated costs associated with the acquisition;
- increased costs of integration;
- the possibility that the full benefits anticipated to result from the acquisition will not be realized;
- over-valuation by us of acquired companies;
- delays in the integration of strategies, operations and services;
- diversion of the attention of our management as a result of the acquisition;
- attrition, differences in business backgrounds, corporate cultures and management philosophies that may delay successful integration;
- retaining key executives and other employees;
- challenges associated with creating and enforcing uniform standards, controls, procedures and policies;
- insufficient indemnification from the selling parties for legal liabilities incurred by the acquired company prior to the acquisition;
- potential unknown liabilities and unforeseen increased expenses or delays associated with the acquisition;
- the disruption of, or the loss of momentum in, our ongoing businesses; and
- changes in regulatory environment.

If we are unable to successfully overcome the potential difficulties associated with the integration process and achieve our objectives following an acquisition, the anticipated benefits and synergies of any future acquisitions may not be realized fully, or at all, or may take longer to realize than expected.

timely realize these anticipated benefits could have a material adverse effect on our business, financial condition, results of operations or cash flows. Possible impairment losses on goodwill and intangible assets with an indefinite life, or restructuring charges could also occur.

16) We have Pan India tie ups with colleges & NGOS to provide our Human Resource services. However, we don't have any formal agreement with these Colleges & NGO's for our services

Human Resource is an indirect asset for any company. We have a huge database of candidates & our Pan India tie ups with colleges & NGOS reduce the shortage of relevant manpower. We supply manpower services to various colleges and NGOs. However, we don't have any formal agreement with these Colleges & NGO's for our services. In case these colleges and NGOs don't require our services, they can terminate our services without due notice and we may face loss in our business and our financial operation.

17) Within the parameters as mentioned in the chapter titled "Objects of the Offer" beginning on page 65 of this Draft Red Herring Prospectus, our Company's management will have flexibility in applying the proceeds of this Offer. The fund requirement and deployment mentioned in the Objects of this Offer have not been appraised by any bank or financial institution.

We intend to use our entire Offer Proceeds towards Funding Working Capital Requirement, Acquisitions of Businesses in similar or complementary areas, General Corporate Purpose and Offer Expense. We intend to deploy the Offer Proceeds in financial year 2023-24 and next years and such deployment is based on certain assumptions and strategy which our Company believes to implement in future. The funds raised from the Offer may remain idle on account of change in assumptions, market conditions, strategy of our Company, etc., For further details on the use of the Offer Proceeds, please refer chapter titled "Objects of the Offer" beginning on page 65 of this Draft Red Herring Prospectus. The deployment of funds for the purposes described above is at the discretion of our Company's Board of Directors. The fund requirement and deployment are based on internal management estimates and has not been appraised by any bank or financial institution. Accordingly, within the parameters as mentioned in the chapter titled "Objects of the Offer" beginning on page 65 of this Draft Red Herring Prospectus, the Management will have significant flexibility in applying the proceeds received by our Company from the Offer subject to provisions of applicable laws. Our Board of Directors will monitor the proceeds of this Offer.

18) If we are unable to identify expansion opportunities or experience delays or other problems in implementing such projects, our growth, business, financial condition, results of operations and prospects may be adversely affected.

Our growth strategy depends on our ability to acquire and manage new human resource businesses, particularly in the areas of IT staffing, General Staffing and US staffing services etc. we are in active discussions and evaluating various strategic acquisitions, but we have not identified the potential acquisition targets and we are continuously evaluating other projects, including acquisition opportunities, some of which we may realize in the imminent future and which may be material to our business, financial condition or results of operations. Such acquisitions and expansions are capital expenditure intensive. We may not be able to identify suitable acquisition candidates or opportunities, negotiate attractive terms for such projects, or expand, improve and augment our existing businesses. The number of attractive expansion opportunities may be limited, and attractive opportunities may command high valuations for which we may be unable to secure the necessary financing. If we are not able to successfully identify opportunities to build, acquire or expand our additional and existing human resource businesses or if we face difficulties in the process of developing, acquiring or expanding such operations, our business, financial condition, results of operations and prospects may be materially and adversely affected.

19) Inability to effectively manage our growth and related issues could materially and adversely affect our business and impact our future financial performance.

During the past few years, we have experienced consistent growth in our business operations. This has occurred through organic growth. Our rapid growth exposes us to a wide range of risks including business

risks, operational risks, fraud risks and regulatory and legal risks. If we are not successful in executing our growth strategy, we may not achieve our planned revenues, therefore negatively impacting future profitability. Our growth strategy may involve significant risks which may have a material adverse effect on our business due to unexpected or underestimated costs. The Company's ability to continue to grow consistently will depend on and a number of factors beyond its control, including the level of competition for opportunities for inorganic growth and our ability to successfully manage our organic growth.

20) India has stringent labour legislations that protect the interests of workers, and if our employees unionize, we may be subject to industrial unrest, slowdowns and increased wage costs.

India has stringent labour legislation that protects the interests of workers, including legislation that sets forth detailed procedures for the establishment of unions, dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. We are also subject to state and local laws and regulations, governing our relationships with our employees, including those relating to minimum wage, bonus, gratuity, overtime, working conditions, recruitment and termination of employment, non-discrimination, work permits and employee benefits. Although our employees are not currently unionized, there can be no assurance that they will not unionize in the future. If our employees unionize, it may become difficult for us to maintain flexible labour policies, and our business may be adversely affected. Further, if we are unable to negotiate with employees, it could result in work stoppages or increased operating costs as a result of higher than anticipated wages or benefits

21) Our ability to operate our business, maintain our competitive position and implement our business strategy is dependent to a significant extent on our senior management team and other key personnel.

We are highly dependent on the continued efforts of our officers and our senior management and the performance and productivity of our local managers and field personnel. Our core management team oversees the day-to-day operations, implementation of strategy and growth of our business. If one or more members of our core management team are unable or unwilling to continue in their present positions, such persons may be difficult to replace, and our business and results of operation could be adversely affected.

In addition, if any member of our senior management team or any of our other key personnel joins a competitor or forms a competing company, we may consequently lose our proprietary know-how for the benefit of our competitors.

Our ability to attract and retain business is also significantly affected by local relationships and the quality of service rendered. Our success depends to a significant extent upon the quality of the decisions of the business heads, the senior management and the members of the Board of Directors of our Company, whose performance is largely supported by their experience. Competition for experienced management personnel in the business sectors we operate in is intense, the pool of qualified candidates is limited, and we may not be able to retain our senior executives or key personnel or attract and retain skilled senior executives or key personnel in the future. Consequently, there can be no assurance that these individuals will continue to make their services available to us in the future.

We are also highly dependent on the performance and productivity of our business development team and client managers. The loss of any of key personnel may cause a significant disruption in our business. In addition, the loss of any of our local managers or field personnel may jeopardize existing client relationships with businesses that use our services based on relationships with these individuals.

22) Client contracts are generally of a short duration and contain termination provisions that could decrease our revenues and earnings.

Most of our client contracts can be terminated by the client on short notice without penalty. Majority of our client contracts are for a period of 12 months to 36 months. Our clients, therefore, are not contractually obligated to continue to do business with us in the future. This creates uncertainty with respect of revenues and earnings from our client contracts.

23) Clients may delay or default in making payments for services which could affect the cash-flows and liquidity of the Company.

Cash collection trends measured by days outstanding have a material impact on the cash receipts and, consequently, on our cash flows. In general, an increase in bad debts or aged debtors leads to greater usage of operating working capital and increased interest costs. Trade receivables constitute a significant portion of our assets and are, therefore, a major business investment. Successful control of the trade receivables process demands development of appropriate contracting, invoicing, credit, collection and financing policies. Our failure to maintain such policies could have a negative effect on its business, financial condition and results.

24) Our Company had negative cash flows from our Operating activities, Investing activities as well as Financing activities in some of the previous year(s):

25) The COVID-19 pandemic, or any future pandemic or widespread public health emergency, could adversely impact our business, results of operations, financial condition and cash flows.

The COVID-19 pandemic has had, and any future pandemic or widespread public health emergency could have, repercussions across global economies and financial markets. The outbreak of COVID-19 in many countries, including India, has significantly and adversely impacted economic activity and has contributed to significant volatility and negative pressure in financial markets, and it is possible that the outbreak of COVID-19 will cause a prolonged global economic crisis, recession or depression, despite monetary and fiscal interventions by governments and central banks globally.

The global impact of the COVID-19 pandemic has been rapidly evolving. As cases of COVID-19 have continued to be identified, many jurisdictions, including the governments of India and the other markets in which we conduct business, have reacted by instituting restrictive measures including invoking lock downs and quarantines, requiring the closure of non-essential businesses and placing restrictions on the types of businesses that may continue to operate, mandating restrictions on travel and movement, implementing “stay-at-home” orders, and enforcing remote working regulations.

On March 24, 2020, the Government of India ordered a national lockdown in response to the spread of COVID-19. Our business was determined to be operating in an essential industry, which allowed us to continue our operations subsequent to the introduction of the lockdown in India, subject to certain adjustments in working patterns. In late 2021, the Omicron variant of COVID-19 led to another surge in infections. In response, local governments started enforcing various restrictions, such as curfew and closure of establishments to prevent crowding.

As overall economy has impacted from the lock down during this period, few segments of our company were also impacted and has resulted in the reduction in numbers of associates such as infrastructure, manufacturing, logistics etc. However, at the same time it has opened up some new opportunities in other segments such as essential services and IT wherein we have added new clients and booked good business in executive search.

With regard to the margins, during the first quarter, temporary relief in service charges was provided to some clients for few months for business continuation which impacted the margin to some extent. However, in second half of the financial year it has been recovered. During tough times we have supported our clients which in turn have increased our goodwill with them.

There can be no assurance that there will not be any material impact on our operations if the outbreak of COVID-19 and subsequent “waves” is not effectively controlled. Although restrictions have now been eased, it is not yet clear whether further restrictions will be announced.

The full extent to which the COVID-19 pandemic, or any future pandemic or widespread public health emergency impacts our business, operations and financial results will depend on numerous evolving factors that we may not be able to accurately predict. Some of these include the scope, severity, and duration of the pandemic; actions taken by governments, business and individuals in response to the pandemic; the effect on customer demand; the impact on our employees’ ability to work and travel; any extended period of remote work arrangements; and strain on our or our customers’ business continuity plans, and resultant operational risk.

26) Our revenues and profitability vary across our business verticals, thereby making our future financial results less predictable.

Our revenues and profitability vary across our verticals. Our results of operations may fluctuate in the future depending on a number of factors, including but not limited to:

- our ability to increase and/or maintain the proportion of our high-margin business verticals, such as the flexi staffing solutions, compared to the proportion of our relatively thin margin verticals, particularly our background checking and verification vertical;
- entering into new contracts and contract renewals, and the selection process and timing for performing these contracts that are subject to contingencies beyond our control;
- the size, complexity, timing of revenue recognition, pricing terms and profitability of significant contracts;
- changes in our pricing policies or those of our competitors;
- financial condition or business prospects of our clients;
- unanticipated variations in the duration, size and scope of our contracts;
- seasonal changes that may affect the demand for our services, the mix of services or the relative proportion of services revenue from our various business segments within a reporting period; and
- Unanticipated cancellations or contract terminations.

As a result of these factors, our results of operations and cash flows may fluctuate from financial reporting period to period. A significant proportion of our operating expenses, particularly full time employee expenses, are fixed. As such, unanticipated variations in key contracts may result in variations in our results of operations in any particular financial period.

27) Any excess payment made to our Associates may result in irrecoverable losses.

We occasionally receive stop pay instructions from our clients for our Associates. However, we might have already made the payments to our Associates. Any such excess payments due to any change of instructions from our clients, or as a result of system or human errors, may lead to losses if we are unable to recover such losses from clients or from the relevant Associates.

28) Our indebtedness and the restrictions imposed by our financing arrangements could adversely affect our ability to conduct our business and operations.

As on nine months ended December 31, 2022, we had total outstanding borrowings of Rs. 255.09 Lakhs. Our ability to meet our debt service obligations and repay our outstanding borrowings will depend primarily on the cash generated by our business. Our financing arrangements contain certain restrictive covenants that limit our ability to undertake certain types of transactions. In the event that we breach a restrictive covenant, our lenders could deem us to be in default and seek early repayment of loans. An event of default would also affect our ability to raise new funds or renew maturing borrowings as needed to conduct our operations and pursue our growth initiatives. Although we have received consents from our lenders for the Fresh Offer, these restrictive covenants may affect some of the rights of our Shareholders.

29) Our Promoters have provided personal guarantees to loan facility availed by us, which if revoked may require alternative guarantees, repayment of amount due or termination of the facilities.

Our Promoters have provided personal guarantees to certain loan facilities availed by us. In the event that any of these guarantees are revoked or withdrawn, the lenders for such facility may require alternative guarantees, repayment of amounts outstanding under such facilities, or may even terminate such facility. We may not be successful in procuring alternative guarantees satisfactory to the lender, and as result may need to repay the outstanding amounts under such facility or seek additional sources of capital, which may not be available on acceptable terms or at all and any such failure to raise additional capital could affect our operations and our financial conditions

30) The Registered Office of the Company is not owned by us. We have taken No Objection Certificate (NOC) for the use of such premises. In the event, the NOC is withdrawn we may suffer a disruption in our operations.

We have taken NOC from the property owner for using property situated at B-46, Retreat Apartments 20, I.P. Extension, Delhi-110092, India as registered office. In the event of revocation of NOC, our business operations may get affected.

31) Our Company is still using one of the offices even after rent agreement has expired.

The Company is still using the premises located 1st Floor, 1606, 7th Cross, 20th Main, HSR Layout, Sector-1, Bangalore – 560102, however the rent agreement has expired and we are under the process of renewing that rent agreement. We cannot assure you that we will continue to be able to continue operating out of our existing premises or renew our existing leases and/or rental agreements on acceptable terms or at all which might affect our business operations. For further details please refer chapter “Our Business” on page 91 of this Draft Red Herring Prospectus.

32) The average cost of acquisition of Equity Shares by our Promoters is lower than the Offer Price.

Our Promoters average cost of acquisition of Equity Shares in our Company is lower than the Offer Price of the shares proposed to be offered though this Draft Red Herring Prospectus. For Details regarding average cost of acquisition of Equity Shares by our Promoters in our Company, please refer the table below:

Average Cost of Acquisition of shares for Promoters:

1.	Mr. Vidur Gupta	85,06,060	0.03
2.	Mr. Sidharth Agarwal	85,06,060	0.03

33) Our insurance coverage may not be adequate and this may have a material adverse effect on our business financial condition and results of operation.

We maintain insurance coverage for key risks relating to our business. While we believe that the amount of our insurance coverage is in line with industry standards, there can be no assurance that any claim under the insurance policies maintained by us will be honoured fully, in part or on time. In addition, not all risks associated with our operations may be insurable, on commercially reasonable terms or at all. Although we believe that we have obtained insurance coverage customary to our business, such insurance may not provide adequate coverage in certain circumstances and is subject to certain deductibles, exclusions and limits on coverage. To the extent that we suffer loss or damage that is not covered by insurance or exceeds our insurance coverage, our results of operations and cash flow may be adversely affected. Natural disasters in the future or occurrence of any other event for which we are not adequately or sufficiently insured may cause significant disruption to our operations that could have a material adverse impact on our business and operations. The occurrence of an event for which we are not adequately or sufficiently insured could have an adverse effect on our business, results of operations, financial condition and cash flows. If we are subject to litigation or claims or our operations are interrupted for a sustained period, we cannot assure you that our insurance policies will be adequate to cover the losses that may be incurred as a result of such interruption. For details, refer chapter “Our Business” on page 91 of this Draft Red Herring Prospectus

34) Upon completion of the Offer, our Promoters and Promoter Group will continue to retain control over us, which will allow them to influence the outcome of matters submitted to the shareholders for approval.

Our Promoters and Promoter Group currently own 100% of our Equity Shares. Upon completion of the Offer, our Promoters and Promoter Group will continue to hold majority of our outstanding Equity Shares. Consequently, our Promoters and Promoter Group may exercise substantial control over us and may have the power to elect and remove a majority of our Directors and/or determine the outcome of proposals for corporate action requiring approval of our Board of Directors or shareholders, such as lending and investment policies, revenue budgets, capital expenditure, dividend policy and strategic acquisitions. Our Promoters and Promoter Group may be able to influence our major policy decisions, including our overall strategic and investment decisions, by controlling the election of our Directors and, in turn, indirectly controlling the selection of our senior management, approving our annual budgets, deciding on increases or decreases in our share capital, determining issuance of new securities by us, approving mergers, acquisitions and disposals of our assets or businesses, and amending our Articles of Association. The interests of our Promoters and Promoter Group could conflict with the interests of our other shareholders, including the holders of our Equity Shares to be offered, and our Promoters and Promoter Group could make decisions that materially adversely affect investment in our Equity Shares to be offered. We cannot assure that our Promoters and Promoter Group will act to resolve any conflicts of interest in our Company’s favour.

35) There may be potential conflict of interests between our Company, Subsidiary and Group Company promoted by our directors or Promoter Group Members/ Entities.

Our business is into deliver integrated Human Resource solutions. STM FZCO a company held by our promoters operating in UAE and M/s Spectrum Talent Management is engaged in the similar line of business. However, we have not executed any Non-Compete Agreement with our Directors or Promoter Group Members/ Entities to not to engage in businesses similar to that of our Company.

Conflicts of interests may arise in the future in allocating business opportunities amongst our Company, Promoter Group Members/ Entities in such circumstances where our respective interests diverge. There can be no assurance that our Directors/Promoter/Promoter Group will not compete with our existing business or any future business that we may undertake or that their interests will not conflict with ours. Any future conflicts could have a material adverse effect on our business, results of operations and financial condition.

36) We have in the past entered into related party transactions and may continue to do so in the future, which may potentially involve conflicts of interest with the equity shareholders.

Our Company has entered into transactions with our certain related parties. While we believe that all such transactions have been conducted on an arm's length basis, there can be no assurance that we could not have achieved more favourable terms had such transactions not been entered into with related parties. Furthermore, it is likely that we will enter into related party transactions in the future. Though we have ensured the compliance of Companies Act, 2013 in dealing with related party transactions, there can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operation. For details on the transactions entered by us, please refer to Chapter titled "Restated Financial Statement" on page 144 of this Draft Red Herring Prospectus.

37) We have not independently verified certain industry data in this Draft Red Herring Prospectus.

We have not independently verified data from the industry and related data contained in this Draft Red Herring Prospectus and although we believe the sources mentioned in the report to be reliable, we cannot assure you that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regards to other countries. Therefore, discussions of matters relating to India, its economy or the industries in which we operate that is included herein are subject to the caveat that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete, inaccurate or unreliable. Due to incorrect or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, we cannot assure you that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

38) Any change in Data Protection Regulations may affect our profitability

We depend on various databases including our own. Change in data privacy regulations in the future may affect our ability to effectively deliver results and adversely affect our profitability. Any theft of this data may also lead to losses

39) The deployment of funds raised through this Offer shall not be subject to any Monitoring Agency and shall be purely dependent on the discretion of the management of our Company.

As per Regulation 262(1) SEBI (ICDR) Regulations, 2018, the requirement of Monitoring Agency is not mandatory if the Fresh Issue size is below Rs.10,000 Lakhs. Since the Fresh Issue size is less than Rs.10,000 Lakhs, there is no mandatory requirement of appointing an Independent Monitoring Agency for overseeing the deployment of utilization of funds raised through this Offer. Although, the Board in consultation with the BRLMs may appoint Monitoring Agency to monitor the utilization of fresh Issue proceeds. In case no monitoring agency is appointed the deployment of these funds raised through this fresh issue will be monitored by the management and the Board of Directors of our Company and will not be subject to monitoring by any independent agency. Any inability on our part to effectively utilize the Fresh issue proceeds could adversely affect our finances.

Offer Related Risks:

40) Any future issue of Equity Shares may dilute your shareholding and sales of our Equity Shares by our Promoters or other major shareholders may adversely affect the trading price of the Equity Shares.

Any future equity issues by us, including in a primary offering, may lead to the dilution of investors' shareholdings in us. Any future equity issuances by us or sales of its Equity Shares by the Promoters may adversely affect the trading price of the Equity Shares. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Equity Shares.

41) Our ability to pay any dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures

The amount of our future dividend payments, if any, will depend upon our Company's future earnings, financial condition, cash flows, working capital requirements, capital expenditures, applicable Indian legal restrictions and other factors. There can be no assurance that our Company will be able to pay dividends.

42) There are restrictions on daily movements in the price of the Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.

Following the Offer, we will be subject to a daily "Circuit Breaker" imposed by NSE, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based, market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on our circuit breakers will be set by the stock exchange based on the historical volatility in the price and trading volume of the Equity Shares.

EXTERNAL RISK FACTORS

43) A slowdown in economic growth in India could adversely affect our business, results of operations, financial condition and cash flows.

We are dependent on domestic, regional and global economic and market conditions. Our performance, growth and market price of our Equity Shares are and will be dependent to a large extent on the health of the economy in which we operate. There have been periods of slowdown in the economic growth of India. Demand for our products may be adversely affected by an economic downturn in domestic, regional and global economies. Economic growth in the country in which we operate is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports of materials, global economic uncertainty and liquidity crisis, volatility in exchange currency rates, and annual rainfall which affects agricultural production. Consequently, any future slowdown in the Indian economy could harm our business, results of operations, financial condition and cash flows. Also, a change in the government or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular and high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margin.

44) Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, may adversely affect our business and financial performance.

Our business and financial performance could be adversely affected by unfavorable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations applicable to us and our business. Please refer to "Key Industry Regulations and Policies" on page 108 of this Draft Red Herring Prospectus for details of the laws currently applicable to us.

There can be no assurance that the Government of India may not implement new regulations and policies which will require us to obtain approvals and licenses from the Government of India and other regulatory bodies or impose onerous requirements and conditions on our operations. Any such changes and the related uncertainties with respect to the applicability, interpretation and implementation of any amendment to, or change to governing laws, regulation or policy in the jurisdictions in which we operate may have a material adverse effect on our business, financial condition and results of operations. In addition, we may have to incur expenditures to comply with the requirements of any new regulations, which may also materially harm our results of operations. Any unfavorable changes to the laws and regulations applicable to us could also subject us to additional liabilities.

GST has been implemented with effect from July 1, 2017 and has replaced the indirect taxes on goods and services such as central excise duty, service tax, central sales tax, state VAT and surcharge being collected by the central and state governments. The GST has led to increase tax incidence and administrative compliance. Any future amendments may affect our overall tax efficiency, and may result in significant additional taxes becoming payable.

Further, the general anti avoidance rules (“GAAR”) provisions have been made effective from assessment year 2018-19 onwards, i.e.; financial Year 2017-18 onwards and the same may get triggered once transactions are undertaken to avoid tax. The consequences of the GAAR provisions being applied to an arrangement could result in denial of tax benefit amongst other consequences. In the absence of any precedents on the subject, the application of these provisions is uncertain.

The application of various Indian tax laws, rules and regulations to our business, currently or in the future, is subject to interpretation by the applicable taxation authorities. If such tax laws, rules and regulations are amended, new adverse laws, rules or regulations are adopted or current laws are interpreted adversely to our interests, the results could increase our tax payments (prospectively or retrospectively) and/or subject us to penalties. Further, changes in capital gains tax or tax on capital market transactions or sale of shares could affect investor returns. As a result, any such changes or interpretations could have an adverse effect on our business and financial performance.

45) Inflation in India could have an adverse effect on our profitability and if significant, on our financial condition.

Inflation is typically impacted by factors such as governmental policies, regulations, commodity prices, liquidity and global economic environment. Any change in the government or a change in the economic and deregulation policies could adversely affect the inflation rates. Continued high rates of inflation may increase our costs such as salaries, travel costs and related allowances, which are typically linked to general price levels. There can be no assurance that we will be able to pass on any additional costs to our clients or that our revenue will increase proportionately corresponding to such inflation. Accordingly, high rates of inflation in India could have an adverse effect on our profitability and, if significant, on our financial condition.

46) You may be subject to Indian taxes arising out of capital gains on sale of Equity Shares.

Under the current Indian Income Tax provisions, all transactions of purchase and sales of securities on Indian stock exchanges are subject to levy of securities transaction tax (STT) which will be collected by respective stock exchange on which the securities are transacted. Accordingly, the Indian Income Tax Act has special capital gains tax provisions for all transactions of purchase and sale of equity shares carried out on the Indian Stock Exchanges. Under the current Indian Income Tax provisions, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India.

47) Any downgrading of India's debt rating by an independent agency may harm our ability to raise financing.

Any adverse revisions to India's credit ratings for domestic and international debt by domestic or international rating agencies may adversely affect our ability to raise additional financing and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our capital expenditure plans, business and financial performance and the price of our Equity Shares.

48) We have not prepared, and currently do not intend to prepare, our financial statements in accordance with the International Financial Reporting Standards (“IFRS”). Our transition to IFRS reporting could have a material adverse effect on our reported results of operations or financial condition.

Public companies in India, including us, may be required to prepare annual and interim financial statements under IFRS in accordance with the roadmap for convergence with IFRS announced by the Ministry of Corporate Affairs, Government of India through a press note dated January 22, 2010 (the “IFRS Convergence Note”). The Ministry of Corporate Affairs by a press release dated February 25, 2011 has notified that 35 Indian Accounting Standards are to be converged with IFRS. The date of implementation of such converged Indian accounting standards has not yet been determined. Our financial condition, results of operations, cash flows or changes in shareholders’ equity may appear materially different under IFRS than under Indian GAAP or our adoption of converged Indian Accounting Standards may adversely affect our reported results of operations or financial condition. This may have a material adverse effect on the amount of income recognized during that period and in the corresponding (restated) period in the comparative Fiscal/period.

49) Financial difficulty and other problems in certain long-term lending institutions and investment institutions in India could have a negative impact on our business.

We are exposed to the risks of the Indian financial system which may be affected by the financial difficulties faced by certain Indian financial institutions because the commercial soundness of many financial institutions may be closely related as a result of credit, trading, clearing or other relationships. This risk, which is referred to as “systemic risk,” may adversely affect financial intermediaries, such as clearing agencies, banks, securities firms and exchanges with whom we interact on a daily basis. Our transactions with these financial institutions expose us to credit risk in the event of default by the counter party, which can be exacerbated during periods of market illiquidity. As the Indian financial system operates within an emerging market, we face risks of a nature and extent not typically faced in more developed economies, including the risk of deposit runs notwithstanding the existence of a national deposit insurance scheme. The problems faced by individual Indian financial institutions and any instability in or difficulties faced by the Indian financial system generally could create adverse market perception about Indian financial institutions and banks. This in turn could adversely affect our business, financial condition, results of operations and cash flows.

50) Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

51) Political instability or changes in the Government could adversely affect economic conditions in India generally and our business in particular.

Our business, and the market price and liquidity of our Equity Shares, may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. Elimination or substantial change of policies or the introduction of policies that negatively affect the Company’s business could cause its results of operations to suffer. Any significant change in India’s economic policies could disrupt business and economic conditions in India generally and the Company’s business in particular.

52) Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the Mumbai terrorist attacks and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

Details of Utilization of Issue Proceeds

Working Capital Requirement

The business model of the company is to earn revenue from various HR Services and as we are focusing to expand the current business on a fast growth stage, we are looking to add and increase the following in our various business lines:

IT Staffing: In the IT staffing business we deploy Information Technology (IT) talent with various customers and we employ the staff on our payroll. The usual credit period is 45 to 90 days. We are aggressively looking to invest in this business.

General Staffing: With the increased brand presence and recognition after the public issue, we will be targeting large manpower contracts which are all on credit of 30 to 60 days. This will build the bulk of our growth which result in significant increase in working capital

Permanent Recruitment Services: This is a one time placement fee based model. When we build a new team here the process of receiving the first payment typically extends to 4 to 6 months. The process starts by hiring a team, then getting them work. It takes 2 to 3 weeks to get candidates selected and another 2 weeks for the offer to be released. Post this there is usually a notice period of 30 to 90 days for the candidates and we raise the invoice after the candidate joins for a payment within 30 to 90 days.

Further, as we are planning to expand the business this will require additional manpower to be hired. Therefore, as per the cycle explained above, the requirement of working capital will be high going forward to support the rise in scale of business.

Introduction

India, a South Asian nation, is the seventh-largest country by area, the second-most populous country with over 1.38 billion people, and the most populous democracy in the world. India boasts of an immensely rich cultural heritage, including numerous languages, traditions, and people. The country holds its uniqueness in its diversity, and hence has adapted itself to international changes with poise and comfort. While the economy has welcomed international companies to invest in it with open arms since liberalisation in the 1990s, Indians have been prudent and proactive in adopting global approaches and skills. Indian villagers have proudly taken up farming, advanced agriculture and unique handicrafts as their profession on one hand, while the modern industries and professional services sectors are coming up in a big way on the other.

The Indian economy has fully recovered to the pre-pandemic real GDP level of 2019-20. The investment rate in the fourth quarter increased to its highest level in the previous nine quarters. Moreover, capacity utilisation in the manufacturing sector rose in the fourth quarter, as against the third quarter, implying a build-up in demand, which is consistent with the growth objectives of the Indian economy.

Future capital spending of the government in the Indian economy is expected to be supported by factors such as tax buoyancy, streamlined tax system, thorough assessment and rationalisation of the tariff structure and digitisation of tax filing. In the medium term, an increase in capital spending on infrastructure and asset-building projects is set to increase growth multipliers.

New Omicron variant has emerged as the fast spreading virus and has shocked the countries like US, Germany, France, Hong Kong and many more by surge in daily new cases, though it is considered to be less infectious compared to the previous variants. However, there has been full or partial lockdowns, travel ban implemented by many counties posing new threat to the global economic recovery and global supply chain. This has resulted in sharp surge in inflation across the globe and interest rate hike is very likely sooner or later.

Vaccination rollout is running at good pace in Western countries and Asian countries have also on strong footing. In India more than 91 cr of population has received at least one dose of the vaccine and total doses count is 157 cr. Economic activity across the globe is picking up very fast amid the detection of new variants of the COVID in Europe and in other parts of the world, which is a bit troublesome.

Growth Outlook

Global economic activity is experiencing a broad-based and sharper-than-expected slowdown, with inflation higher than seen in several decades. The cost-of-living crisis, tightening financial conditions in most regions, Russia's invasion of Ukraine, and the lingering COVID-19 pandemic all weigh heavily on the outlook. Global growth is forecast to slow from 6.0% in 2021 to 3.2 percent in 2022 and 2.7% in 2023. This is the weakest growth profile since 2001 except for the global financial crisis and the acute phase of the COVID-19 pandemic.

Global inflation is forecast to rise from 4.7% in 2021 to 8.8% in 2022 but to decline to 6.5% in 2023 and to 4.1% by 2024. Monetary policy should stay the course to restore price stability, and fiscal policy should aim to alleviate the cost-of-living pressures while maintaining a sufficiently tight stance aligned with monetary policy. Structural reforms can further support the fight against inflation by improving productivity and easing supply constraints, while multilateral cooperation is necessary for fast-tracking the green energy transition and preventing fragmentation.

Global Staffing Industry Overview

The private employment services industry was one of many sectors to see a decline in the first year of the pandemic. Turnover of the entire industry, bringing together the five service segments agency work, direct recruitment, career management, Managed Services Providers (MSP) and Recruitment Process Outsourcing (RPO), contracted by 9% in 2020. This decline marks a halt to the positive annual growth seen for the past couple of years but comes as no surprise.

In 2021, industry experienced strong growth in the private employment services industry, as many of the largest markets began their recovery quickly after the initial and unprecedented downturn of the second quarter of 2020. As conditions improved and businesses adapted to the new uncertainty brought about by the pandemic, economies and labour markets picked up again. Higher-frequency indicators for the private employment services sector show that as of the end of 2021, several of the largest markets are already back to pre-crisis levels in terms of activity and turnover.

In 2020, when the global COVID-19 pandemic turned economies, labour markets and societies upside down, the private employment services industry, like many other sectors, was heavily impacted. Turnover for the global industry declined by 9.0% in 2020, compared with a 3.1% contraction of global GDP (International Monetary Fund). Agency work turnover, the largest segment of the private employment services industry, was down by 10.0% globally. Direct recruitment turnover dropped by 16.3%, while the MSP and RPO markets contracted by 3.3% and 10.3% respectively.

The largest 15 agency work markets generated 93% of global sector revenues, while the 15 largest direct recruitment markets accounted for 95% of the global turnover in that segment of the private employment services industry. Nearly all of these markets declined in 2020. Most of them saw drops in the double-digit range, with the US agency work and direct recruitment turnover down by 12% and 29% respectively.² The UK markets contracted by 9% and 38%³ and Germany, France and the Netherlands fared similarly, at least when looking at the agency work markets. Japan, the second largest agency work market after the United States, is the only market to have grown in 2020 when looking at revenues.

Global Market Size

Total turnover of the global private employment services industry in 2020 is estimated at €465.8 billion (\$532 bn). Once again, the agency work sector generated the major share of revenues among all five HR service segments of the industry, contributing 78% of global revenues. Agency work revenues stood at €361.4 billion (\$412.7 bn) in 2020. The revenue share of activities which are purely attributed to Managed Services Provision (MSP) is estimated to be around 8% in 2020 (€37.8 billion), while the majority of MSP activities can actually be attributed to the agency work sector. Direct recruitment activities resulted in revenues of €59.4 billion (\$67.8 bn), equivalent to 13% of the global industry turnover. Recruitment Process Outsourcing (RPO) and career management markets remain relatively small in size, at €5.1 billion (\$5.8 bn) and €2.2 billion (\$2.5 bn) respectively.

B. Intellectual property laws

Intellectual Property Rights

Intellectual property rights in India enjoy protection under both statutory and under common law. The key legislations governing intellectual property in India are the Copyright Act, 1957, and the Trade Marks Act, 1999. India is also a party to several international agreements for the protection of intellectual property rights.

The Trademarks Act, 1999

The Trademarks Act, 1999 (“TM Act”), provides for the application and registration of trademarks in India. The purpose of the TM Act is to grant exclusive rights to marks such as a brand, label and heading and to obtain relief in case of infringement for commercial purposes as a trade description. The registration of a trademark is valid for a period of 10 years and can be renewed in accordance with the specified procedure.

Application for trademark registry has to be made to Controller-General of patents, designs and TM Act who is the Registrar of Trademarks for the purposes of the TM Act. The TM Act prohibits any registration of deceptively similar trademarks or chemical compound among others. It also provides for penalties for infringement, falsifying and falsely applying trademarks.

Indian Copyright Act, 1957

The Indian Copyright Act, 1957 ("Copyright Act"), governs copyright protection in India. Under the Copyright Act, copyright may subsist in original literary, dramatic, musical or artistic works, cinematograph films, and sound recordings. Following the issuance of the International Copyright Order, 1999, subject to certain exceptions, the provisions of the Copyright Act applies to nationals of all member states of the World Trade Organization.

While copyright registration is not a prerequisite for acquiring or enforcing a copyright, registration creates a presumption favoring ownership of the copyright by the registered owner. Copyright registration may expedite infringement proceedings and reduce delay caused due to evidentiary considerations. Once registered, the copyright protection of a work lasts for 60 years. The remedies available in the event of infringement of a copyright under the Copyright Act include civil proceedings for damages, account of profits, injunction and the delivery of the infringing copies to the copyright owner.

C. Other Applicable Laws

The Information Technology Act, 2000 ("Information Technology Act")

The Information Technology Act has been enacted to provide legal recognition for transactions carried out by means of electronic data interchange and other means of electronic communication, commonly referred to as "Electronic Commerce", which involve the use of alternatives to paper-based methods of communication and storage of information etc. Additionally, the said Act also provides for civil and criminal liabilities including fines and imprisonment for various computer related offences. These include offences relating to unauthorized access to computer systems, it also recognizes contracts concluded through electronic means, creates liability for failure to protect sensitive personal data and gives protection to intermediaries in respect of third party information liability. It also provides civil and criminal liabilities. The Information Technology Act also provides punishment for offences committed outside India.

The Department of Information and technology, under the Ministry of Communications & information Technology, Government of India, has notified the Information Technology (Reasonable Security Practices and Procedures and Sensitive personal Data or Information) Rules 2011, which gives directions for the collection, disclosure, transfer and protection of sensitive personal data by a body corporate or any person acting on behalf of a body corporate. The said rules also require the body corporate to provide a privacy policy for handling and dealing on personal information, including sensitive personal data.

D. Important General Laws

The Companies Act, 1956 and The Companies Act, 2013

The consolidation and amendment in law relating to the Companies Act, 1956 made way to enactment of the Companies Act, 2013. The Companies Act, 1956 is still applicable the sections which have not yet been replaced by the Companies Act, 2013 through any official notification. The act deals with incorporation and post incorporation. The conversion of private company into public company and vice versa is also laid down under the Companies Act, 2013. The provisions of this act shall also apply to banking companies, companies engaged in generation or supply of electricity and any other company governed by any special act for the time being in force. A company can be formed by seven or more persons in case of public company and by two or more persons in case of private company. A company can even be formed by one person i.e. One Person Company. The provisions relating to formation and allied procedures are mentioned in the act.

Shops and establishments Legislations

Under the provisions of local Shops and Establishments laws applicable in various states, establishments are required to be registered. Such laws regulate the working and employment conditions of the workers employed in shops and establishments including commercial establishments and provide for fixation of

working hours, rest intervals, overtime, holidays, leave, termination of service, maintenance of shops and establishments and other rights and obligations of the employers and employees.

Contract Act, 1872

The Act provides the general principles and rules governing contracts. It determines the circumstances under which promises made by the contracting parties shall be legally binding on them. It specifies the remedies that are available against a person who fails to perform the contract entered into by him, in a Court of law. It also defines the conditions under which the remedies are available.

The law of contract is essential to carry on trade or commerce smoothly, because it introduces definiteness in the business transactions. It does not mean that it affects only the business people. It affects the entire society. That is, it affects all of us in one way or the other. Every one of us enters into a number of contracts from morning to night. When a person purchases a book, or goes to cinema, or gives his car to the mechanic for repair etc., he enters into a contract. So, the Contract Act is considered as the most important factor in legal environment.

E. Property Related Laws

Transfer of Property Act, 1882

The transfer of property, including immovable property, between living persons, as opposed to the transfer of property by the operation of law, is governed by the Transfer of Property Act, 1882 ("T.P. The Indian Stamp Act, 1899

Stamp duty is payable on all instruments/ documents evidencing a transfer or creation or extinguishment of any right, title or interest in immoveable property. The Indian Stamp Act, 1899 (the "Stamp Act") provides for the imposition of stamp duty at the specified rates on instruments listed in Schedule I of the Stamp Act. However, under the Constitution of India, the states are also empowered to prescribe or alter the stamp duty payable on such documents executed within the state. Instruments chargeable to duty under the Stamp Act but which have not been duly stamped, are incapable of being admitted in court as evidence of the transaction contained therein. The Stamp Act also provides for impounding of instruments by certain specified authorities and bodies and imposition of 138 penalties, for instruments which are not sufficiently stamped or not stamped at all. Instruments which have not been properly stamped instruments can be validated by paying a penalty of up to 10 times of the total duty payable on such instruments.

F. Taxation & Duty Laws

The Central Goods and Services Tax Act, 2017 (GST)

GST is a single tax on the supply of goods and services, right from the manufacturer to the consumer. Credits of input taxes paid at each stage will be available in the subsequent stage of value addition, which makes GST essentially a tax only on value addition at each stage. The final consumer will thus bear only the GST charged by the last dealer in the supply chain, with set-off benefits at all the previous stages.

Income Tax Act, 1961

The Income Tax Act, 1961 deals with the taxation of individuals, corporate, partnership firms and others. As per the provisions of this Act the rates at which they are required to pay tax is calculated on the income declared by them or assessed by the authorities, after availing the deductions and concessions accorded

under the Act. The maintenance of Books of Accounts and relevant supporting documents and registers are mandatory under the Act. Filing of returns of Income is compulsory for all assesses.

Customs Act, 1962

The Customs Act was formulated in the year 1962 to prevent the illegal import and export of goods. Moreover, all imported goods are subject to the duty to affording protection to indigenous industries as well as to keep the imports to a minimum in the interests of Indian companies and to secure the exchange rate of the Indian currency.

The main objective of this Act is to restrict the imports for conserving foreign exchange or to protect the imports and exports of goods for achieving the policy objectives of the Government or to regulate export or to coordinating legal provisions with other laws dealing with the foreign exchange such as the Foreign Trade Act and the Foreign Exchange Regulation Act.

G. Other laws

Under this Act, various powers have been bestowed upon the Central Government. According to the provisions of this act, the Central Government has all the power to make any provisions that are related to foreign trade in order to fulfil the objectives of the act. This Act also empowers the government to make any provisions in tandem to the formulations of import as well as export policies governing throughout the country. The Act further provides for the appointment of the Director General by the Central Government by notifying this appointment in the Official Gazette for carrying out all the foreign trade policies as per the provisions provided.

The Foreign Exchange Management Act, 1999 (FEMA)

FEMA officially came into force on 1st June 2000. It is an Act of the Parliament of India "to consolidate and amend the law relating to foreign exchange with the objective of facilitating external trade and payments and for promoting the orderly development and maintenance of foreign exchange market in India". It was passed on 29 December 1999 in parliament, replacing the Foreign Exchange Regulation Act (FERA). This act makes offences related to foreign exchange civil offenses. It extends to the whole of India, replacing FERA, which had become incompatible with the pro-liberalization policies of the Government of India. It enabled a new foreign exchange management regime consistent with the emerging framework of the World Trade Organization (WTO). It also paved the way for the introduction of the Prevention of Money Laundering Act, 2002, which came into effect from 1 July 2005.

Phased implementation of Unified Payments Interface

SEBI has issued the UPI Circulars in relation to streamlining the process of public issue of inter alia, equity shares. Pursuant to the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by RIBs through Designated Intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circulars have introduced the UPI Mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever was later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, an RIB had the option to submit the ASBA Form with any of

the Designated Intermediary and use his/ her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

Phase II: This phase has become applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 has decided to extend the timeline for implementation of UPI Phase II until March 31, 2020. Under this phase, submission of the ASBA Form by RIBs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds has been discontinued and replaced by the UPI Mechanism. However, the time duration from public issue closure to listing continues to be six Working Days during this phase. Subsequently, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II till further notice.

Phase III: The commencement period of Phase III is yet to be notified. In this phase, the time duration from public issue closure to listing would be reduced to three Working Days. Accordingly, upon commencement of Phase III, the reduced time duration shall be applicable for the Offer.

Pursuant to the UPI Circular, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors' complaints in this regard, the relevant SCSB as well as the post – Offer BRLMs will be required to compensate the concerned investor.

All SCSBs offering the facility of making applications in public issues shall also provide the facility to make application using UPI. The Company will be required to appoint one of the SCSBs as a Sponsor Bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and/ or payment instructions of the Retail Individual Bidders using the UPI.

The processing fees for applications made by Retail Individual Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI Circular No: SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with SEBI Circular No: SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021.
